Learning Objectives

At the conclusion of this activity, the participant will be able to:

- Apply updated knowledge of internal medicine to clinical practice
- Improve clinical practice by incorporating major new developments in subspecialty medicine
- Understand how to manage and treat chronic diseases

Pathways to Fellowship

Attendance at chapter meetings can help all ACP members meet the qualifications for advancement to Fellowship. It is especially important for those applying under the pathway that calls for five years of activity as a member. Find out more about Fellowship at the Fellowship table on Friday at lunch.

CME Accreditation

The SEP modules pre-course, for a maximum of 4 AMA PRA Category 1 credit(s). MOC points for the SEP modules will be claimed through the ABIM.

Successful completion of this CME activity (the Missouri Chapter Scientific Meeting), which includes participation in the evaluation component, enables the participant to earn up to 16 medical knowledge MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Women in Medicine Luncheon

Join us for our Chapter’s “Women in Medicine” series, with the topic "Taking Back Your Nights and Weekends" Our focus is to create a venue for women physicians to collaborate and engage in fruitful discussions that will help us promote, progress and be successful in our chosen field. These ongoing sessions will give us an opportunity to be mentors and mentees and provide a platform for professional development. We are committed to focusing on issues that are relevant to any successful physician. The topics might vary, but the spotlight is YOU! So join us and let’s solve some problems, build our network and embark on our own journeys.

Resident & Fellow Member Activities and Events

Education: Programming developed by the Resident & Fellow Committee will be held on Saturday morning, September 11.

Poster Competition: Clinical vignettes, research, and quality improvement/patient safety or high-value care posters prepared by Resident members will be presented on Saturday, September 11.

Doctors Dilemma (aka "Medical Jeopardy") will be at 3:30 p.m. on Saturday. Teams will compete to represent Missouri at IM22.

Student Member Activities and Events

All student activities will be held virtually this year. We will send more information out to students at a later date.

Early Career Physicians Activities and Events

Poster Competition: Clinical vignettes, research, and quality improvement/patient safety or high-value care posters prepared by Early Career Physician members will be presented on Saturday, September 11.

An education session will be held that morning, with the poster competition in the afternoon. The first 5 early career physicians to apply as a poster contestant will receive free conference registration.

Register online at www.MissouriACP.org or through the ACP member portal.
