Advocacy Avenue

Missouri politicians make rare bipartisan stand for moms at risk of pregnancy-related death.

In May 2023, Missouri joined 32 states having expanded Medicaid for one year postpartum. An estimated 4,500 Missourians will now gain access to the coverage.

Thank you to the Health and Public Policy Committee and those who joined us in going to Jefferson City during ACP's Advocacy Day and talking to our elected officials about this important topic – YOU MADE A DIFFERENCE!

International Medical Graduates

Thirty-five percent of ACP Membership is comprised of International Medical Graduates (IMGs) (including your governor!). Survey data has revealed that IMGs in training and in early career stages have unique professional and cultural needs that benefit from specialized programming and resources to help ensure success as an internal medicine physician.

Check out the new "Members Only" [International Medical Graduate Resources and Opportunities](#) section for International Medical Graduates on ACPOnline.
